TEACHER TRAINING INSTITUTE

Teacher Training Institute provides New York City educators with the content, curriculum and materials to bring world-class chess programming in their schools and classrooms – at absolutely no cost.

Chess in the Schools is proud to offer the Teacher Training Institute (TTI) to educators across New York City. This innovative program builds on Chess in the Schools' 20+ years of placing chess teachers in hundreds of New York City schools. TTI's day-long workshops train educators how to teach the game of chess and implement programming in their own school or classroom, further expanding the reach and impact of Chess in the Schools' world-class curriculum.

ABSOLUTELY NO COST: Teacher Training Institute is offered 100% free of charge to all New York City licensed public school teachers

NO CHESS EXPERIENCE NECESSARY: Educators who wish to participate in a TTI do not need to have ANY prior experience with chess. TTI workshops train educators how to play chess and also how to teach chess. Chess in the Schools will also offer support during the implementation process at your school.

OPEN TO ALL NYC PUBLIC SCHOOL TEACHERS: Teacher Training Institute is open to all New York City public school licensed teachers and administrators (If you are not a New York City public school teacher and are interested in TTI, please contact us at tti@chessintheschools.org)

SIGN UP NOW FOR A ZOOM TEACHER TRAINING INSTITUTE

Saturday, February 11, 2023, at 10AM-12PM | Level 1
